Participant Profile

Gender ● Female ● Male

Across the **51** Events that have been held at Jesmond Dene parkrun a total distance of **74,225km** (registered finishers covered - 69,430km) has been run, walked and even pushed by our **6,632** fantastic participants all cheered along by an average **32** outstanding volunteers (**400** people).

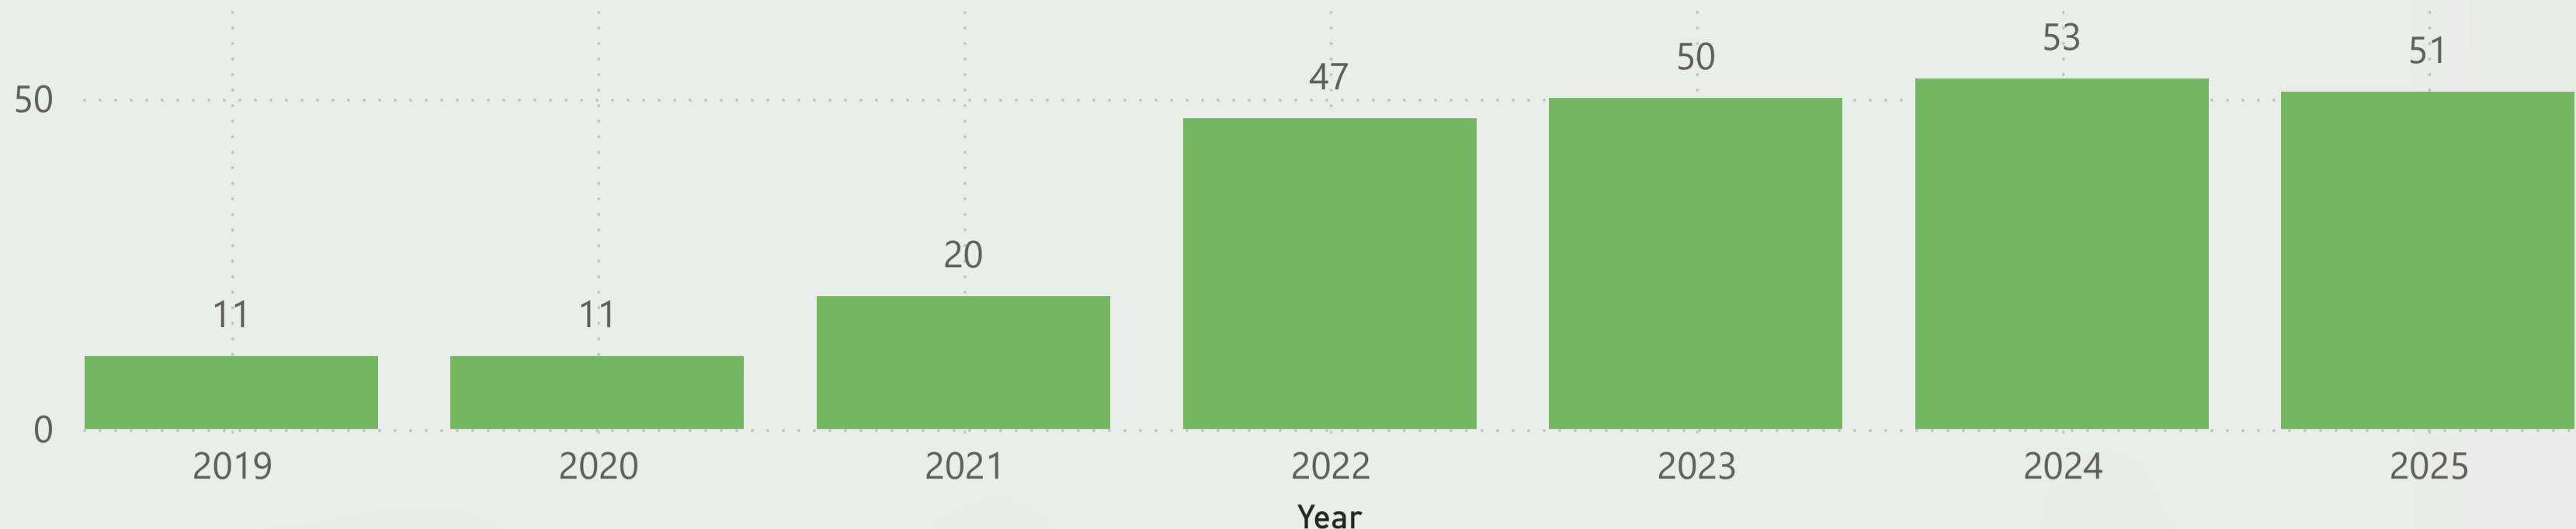

Event Performance

Event numbers remain consistent with the established pattern since 2022. We have achieved our goal of **51** events, we are proving to be a consistent event and will aim to again achieve 51 events in 2026.

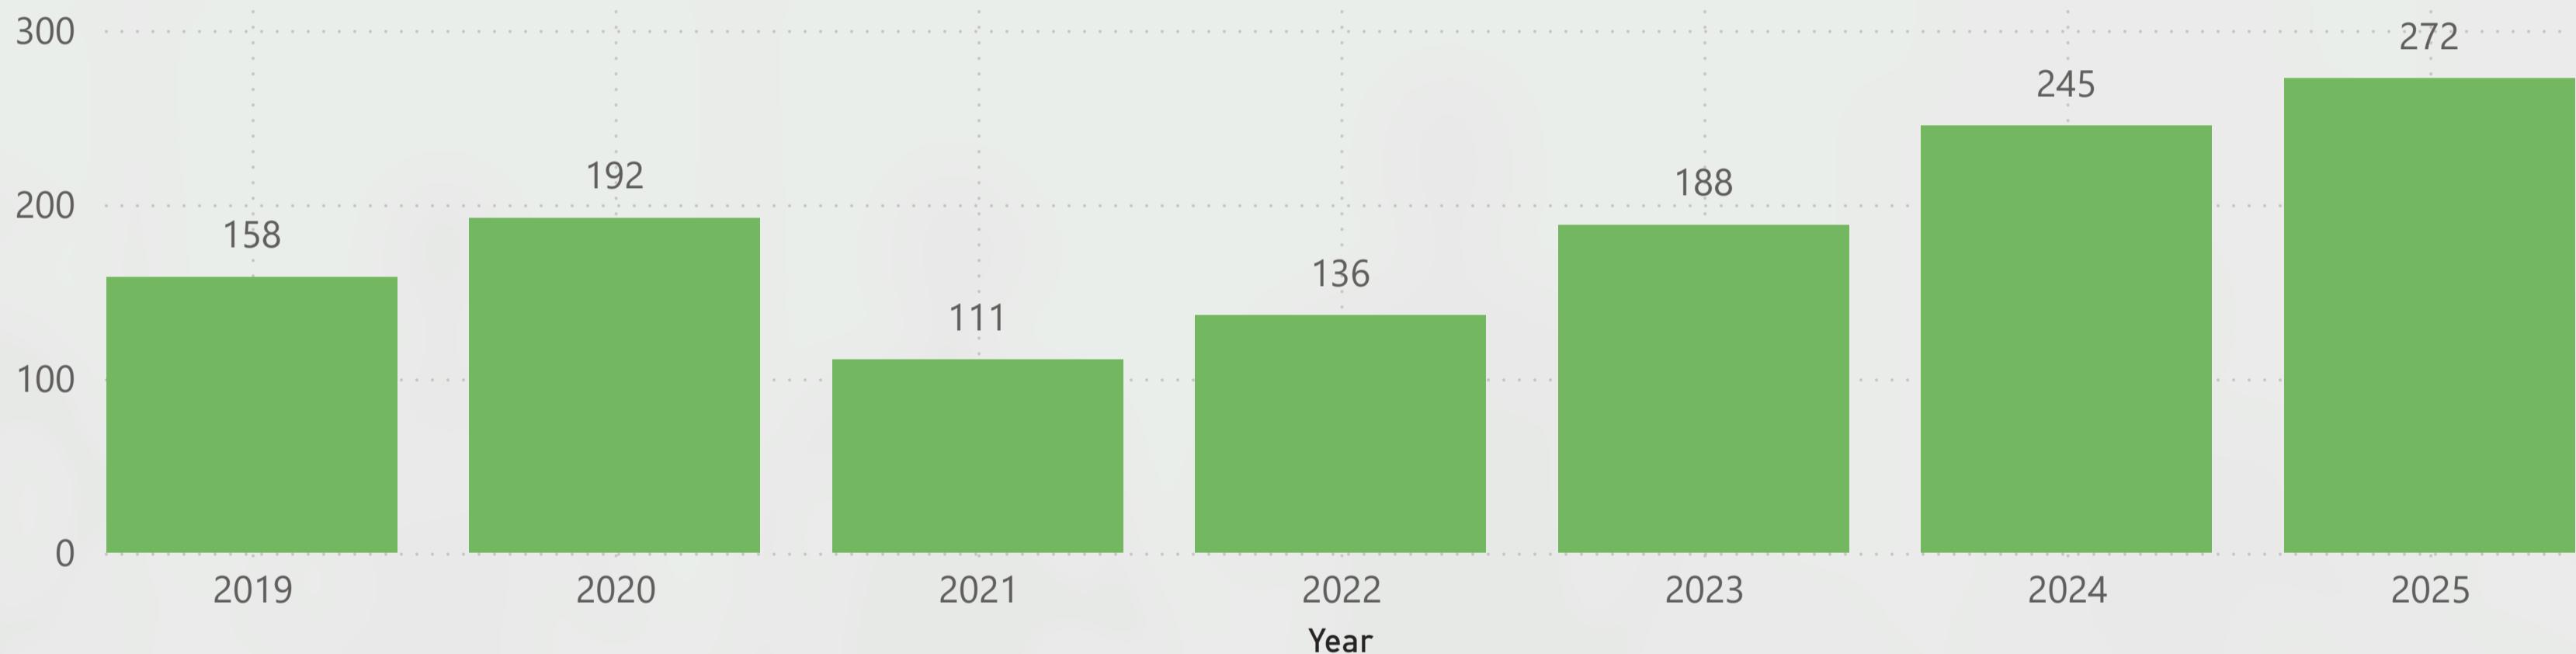

Average field size continues its upward trajectory, reaching **272 finishers per event**—an increase of **11%** **on 2024** and nearly double the 2022 figure. This growth reflects sustained engagement and a thriving local community. The tapering of our average field size suggest we should not exceed an average field size of 300 in 2026.

Average Age Grade has eased to **50.75%**, continuing the expected gradual decline from 52.91% in 2022. This trend is positive at an event level, indicating broader participation and inclusivity, as more people of all abilities take part.

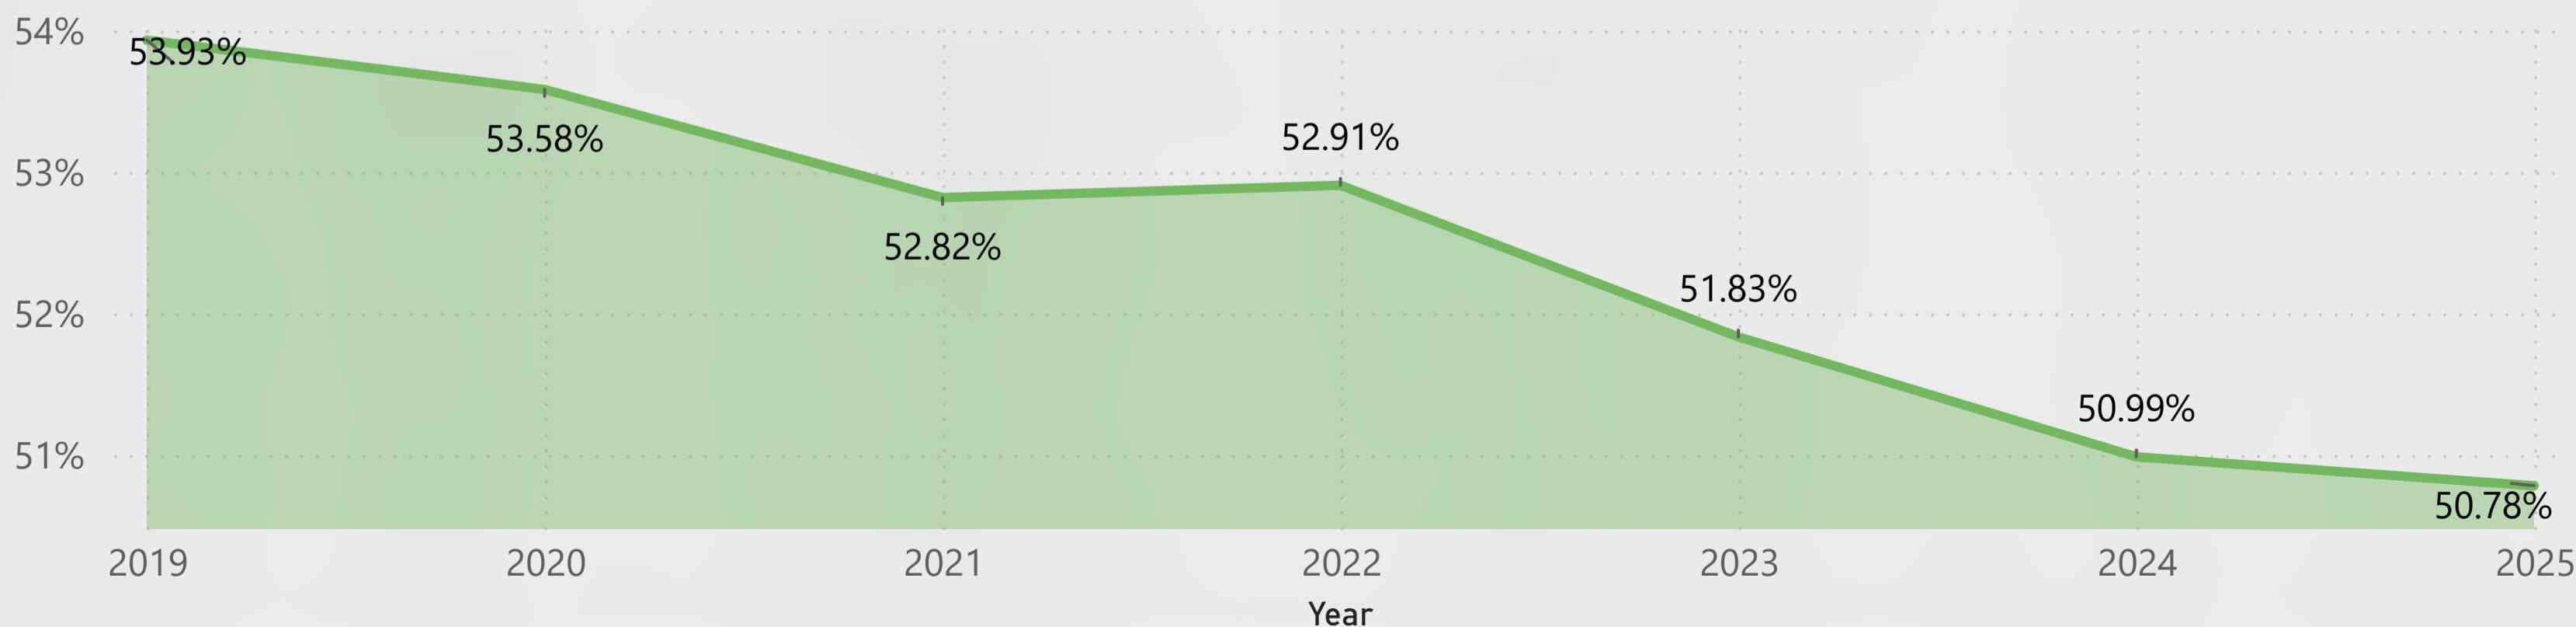

Annual Events

Average Volunteers

Runners / Volunteer

Our Hi-Viz Heroes

Jesmond Dene has a tricky winding course so we need a lot of volunteers. Some weeks we get volunteers no problems, other days we do struggle, but the community always comes good for us and we are able to be on.

We saw a reduction in the number of people volunteered in 2025, despite more people looking to actively volunteer, this may be due to a lower number of parkwalking tourists, but analysis at this level is just not currently possible. **400** people volunteers in 2025, that's over **16,000**, times people volunteered at Jesmond Dene.

We are monitoring the increase in people per volunteer in 2026 as we look to make sure we continue to safely run our event in an environment like Jesmond Dene.
